EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

Page 1, line 5 "09/415,965" has been inserted after "S/N".

Page 11, line 21 "09/415,965" has been inserted after "S/N".

In the Claims:

Claim 8, line 5, "identify" has been changed to -identity--;

Claim 18, line 3, "may be" has been changed to -is--;

Claim 18, line 6, "identify" has been changed to -identity--;

Allowable Subject Matter

1. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 1-16, 18-21 and 23-25 are found to be in condition for allowance.

Reasons for Allowance

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method and apparatus for providing synchronization to a video decoder comprising selecting means for selecting a modifier from a group of modifiers based on video format attributes derived from a video bit-stream, and modifying means for modifying a synchronization timing parameter of the decoding system with the selected modifier prior to decoding the video bitstream, wherein the group of modifiers includes the ratios 1/1, 1000/1001, and 1001/1000.

The closest prior art (Kim US Patent no. 6,028,641) discloses a similar method and apparatus for providing synchronization to a video decoder. However, Kim fails to particularly teach or suggest *"selecting a modifier from a group of modifiers based on video format attributes derived from a video bit-stream, and modifying means for modifying a synchronization timing parameter of the decoding system with the selected modifier prior to*

decoding the video bitstream, wherein the group of modifiers includes the ratios 1/1, 1000/1001, and 1001/1000.” as claimed.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled “Comments on Statement of Reasons for Allowance”.
